Download the RC 71 Mobile App. The key legacy of the Tsunami for the public health of the Region is the importance of strengthening health systems to be capable of detecting and dealing with disease at a very early stage. This is a lesson that must be taken very seriously. we saw on television in the United States, there are other emergencies waiting to happen.Â In late July this year the virus was carried beyond Asia, being also found in Russia and Kazakhstan. The known bird reservoirs have been decisively handled. Over 140 million birds have been culled.
