

Tabletop Gardens

By Rosemary McCreary

Storey Books. Paperback. Book Condition: new. BRAND NEW, Tabletop Gardens, Rosemary McCreary, Indoor plants bring living warmth to any interior decor. Arrange them in beautiful containers, root them creatively in varied textural beds, and enjoy the stunning results. Author Rosemary McCreary has designed 40 dazzling tabletop gardens to inspire the indoor green thumb year-round - gardens that enhance the home with more drama than potted house-plants and greater durability than cut flowers. McCreary's innovative designs include stylish gardens under glass; floating plants whose roots, visible in clear water, are part of the allure; and miniature landscapes that grow in every type of beautiful tray, container, and basket imaginable. Among the projects are a collection of succulents springing out of a colourful gravel bed; a basket of savoury Mediterranean herbs to perk up winter meals; cascading ivy, trained to frame a north-facing window; and a charming miniature tea rose in a jar. To ensure success, each project includes step-by-step design and planting instructions, a complete checklist of required materials, ongoing care advice, and full-colour photography of materials and the completed garden. Exotic orchids, soft grasses, easy-to-grow herbs, and colourful bulbs are among the dozens of popular plants McCreary encourages gardeners to...

The latest brilliant trend in gardening is all about thinking small - so think tabletop, think windowsill, think wall hanging. You can create a tiny, container garden in any place you can spare. For once it doesn't matter how big your outside space is, it doesn't matter if you have an outdoor space at all, everyone can have a go at this. It's small and concentrated, with a huge attention to detail. Every pot and every petal is important. Tabletop gardens that will remain indoors are best planted with root and leaf crops. They require less direct sunlight than fruit vegetables. And they can tolerate partial shade. Even shade-tolerant vegetables, however, need light. Place your garden in a sunny window that faces south. For quickest results, plant fast growers like the vegetables below.
