Coping with cancer.

In her new book, *Woman Sex Cance.*, Dr. Anne Katz explains the changes that many women with cancer experience and offers practical and compassionate advice on how to handle these changes. Modern medicine has increased the survival rate of the woman with cancer, and, for many patients, the memory of cancer and its treatments will fade. Sexuality, though, remains an important part of life and this book gives you the information and tools you need to reclaim your sex life after the challenges of cancer. Read more. In sex, a Cancer woman will never make the first step, although she's responsive to her partner's desire. She's too shy and afraid that if she gets out of her shell, she can do something wrong. You need to provide support until her erotic imagination is freed from this fear. The sensitive nature of a Cancer woman in sex is greatly influenced by her partner's attitude. If you're understanding, sympathetic, and kind, your partner will open up before you. But it's also easy to scare her off with a rude word or gesture.
