Anne & Scope
JITED is a peer-reviewed journal, focuses on international economics, economic development and, more importantly, the interface between trade and development. The links between trade and development economics are critical at a time when both fluctuating commodity prices and trade liberalisation and agreements can radically affect the economies of developing countries.

JITED aims to meet the needs of international and development economists, economic historians, applied economists and policy makers. The international experts who make up the journal’s Editorial Board encourage contributions from economies worldwide.

JITED covers:
- Theoretical and applied issues in international and development economics
- Economic applications of trade and/or development issues based on sound theoretical economic models or testing fundamental economic hypotheses
- Models of structural change
- Trade and development issues in economies in Eastern Europe, Asia and the Pacific area
- Papers on specific topics
- Reviews on important branches of the literature

Notes for Contributors
All submissions should be made online at the International Trade & Economic Development Manuscript Central site (link to http://mc.manuscriptcentral.com). New users should first create an account. Once a user is logged onto the site, submissions should be made via the Author Centre.

Authors should prepare and upload two versions of their manuscript:
- One should be a complete text, while the second document information identifying the author should be removed from this file to allow them to be sent anonymously to referees. When uploading, authors will have the ability to define the non-anonymous version as ‘File not for review’. When submitting your manuscript, please upload all of your original source files.

Submit a single paper to the journal will be taken to imply that it presents original, unpublished work and not made public for publication elsewhere. By submitting a manuscript, the authors agree that exclusive rights to reproduce and distribute the article have been given to the publishers, including reprints, photographic reproductions, microfilm, or any republications of a similar nature, and translations.

1. The submission should include a cover page showing the author’s name, the department where the work was done, an address for correspondence, if different, telephone numbers, electronic address and any acknowledgements.

2. Submissions should be in English, typed in double spacing with wide margins, one side only of the paper, preferably of A4 size. The title, but not the author’s name should appear on the first page of the manuscript. Furthermore, to assist objectives, the author should avoid any reference to him or herself which would enable identification by referees. Article should normally be as concise as possible. The difficulty and expense involved in making amendments at the page proof stage make it essential for authors to prepare their typescript carefully:

RJTE_I_20_06_COVER.qxd  9/28/11  1:18 PM  Page 2

Help is likely to be if authors follow the above instructions, and return their page proofs to the editor on the date requested.

10. It is a condition of publication that authors assign copyright or license the publication rights in their articles, including abstracts, to Taylor & Francis. This enables us to ensure that the article will be produced and distributed efficiently. Further information can be found at www.informaworld.com/authors_journals_copyright_position. Authors are themselves responsible for obtaining permission to reproduce copyright material from other sources.
