Permissions: 
We thank the following organizations for permission to use their illustrations: Breast Health Access for Women with Disabilities at the Alta Bates Summit Medical Center (for a drawing on page 130); Pearl S. Buck International, Vietnam (for sign language drawings on pages 369-370); Sahaya International, USA (for sign language illustrations drawn from photographs in The Kenyan’s Deaf Peer Education Manual, on pages 369-370); and Jun Hui Yang (for Chinese Sign Language illustrations on pages 369-370).
THANKS

It is impossible to adequately thank all the people who helped make *A Health Handbook for Women with Disabilities* a reality. It started 10 years ago as a good idea shared by 2 women, and grew into a remarkable international collaboration between women with disabilities and their friends in more than 40 countries.

Listing a person’s name does not begin to say how much her efforts and ideas helped create this book. Every staff member, intern, and volunteer here at Hesperian also helped bring this book into the world, including those who raise funds, manage finances, publicize our materials, and pack and ship them around the world.

Along with our tireless medical editors, we called on a few reviewers over and over again, and they deserve a special mention and our sincerest thanks: Naomy Ruth Esiaba, Kathy Martinez, Gail McSweeney, Janet Price, Judith Rogers, Andrea Shettle, Ekaete Judith Umoh, and Veda Zachariah.

Many thanks to the following groups of people with disabilities who contributed so much of their hearts, time, and personal experience to help us make sure the material in this book would be useful to women with disabilities all over the world:

**Afghanistan**: the National Association of Women with Disabilities of Afghanistan (NAWDA)

**Cambodia**: the Women with Disabilities Committee of the Disability Action Council

**China**: MSI Professional Services

**Colombia**: the Colombian Association for Disabled Peoples (ASCOPAR)

**El Salvador**: La Asociación Cooperativa de Grupo Independiente Pro Rehabilitación Integral (ACOGIPRI)

**Fiji**: the Support Group for Women with Disabilities

**Finland**: the Abilis Foundation, and The National Council on Disability

**Republic of Georgia**: the Gori Disabled Club

**India**: the Amar Jyoti Charitable Trust, Blind People Association, Catholic Relief Services (CRS), Disabled People’s International, Humane Trust, and Sanjeevini Trust

**Jamaica**: Combined Disabilities Association

**Kenya**: The Bob Segero Memorial Project, and Hope

**Laos**: the Lao Disabled People’s Association, and the Lao Disabled Women Development Center

**Lebanon**: the Arab Organization of Disabled People, and the National Association for the rights of Disabled People Lebanon (NARD)

**Lesotho**: the Lesotho National Federation of Organizations of the Disabled

**Mauritius**: the Association of Women with Disability

**Nepal**: the Nepal Disabled Women Society, and Rural Health Education Services Trust (RHEST)

**Nigeria**: the Family-Centered Initiative for Challenged Persons (FACICP)

**Palau**: the Organization of People with Disabilities (Omekasang)

**Philippines**: Differently Abled Women’s Network (DAWN), Disabled People’s International (DPI), and KAMPI

**Russia**: Perspektiva (the Regional Society of Disabled People)

**South Korea**: Korean Differently Abled Women United

**Tanzania**: The National Council for People with Disabilities

**Thailand**: Disabled People’s International-Asia Pacific

**Trinidad/Tobago**: the Tobago School for the Deaf, Speech and Language Impaired

**Uganda**: the Disabled Women’s Network and Resource Organisation (DWNRO), Mobility Appliances by Disabled Women Entrepreneurs (MADE), and the National Union of Disabled Persons of Uganda

**USA**: Mobility International USA (MIUSA), Through the Looking Glass, Women Pushing Forward, and the World Institute on Disability (WID)

**Vietnam**: the Vietnam Veterans of America Foundation

**Yemen**: the Arab Human Rights Foundation

**Zimbabwe**: Disabled Women Africa (DIWA), the National Council on Disabled Persons of Zimbabwe, the Southern Africa Federation of the Disabled (SAFOD), and Women with Disabilities Development (ZWIDE)
Our heartfelt gratitude to everyone who gave so generously of their time and knowledge. Your commitment to health care for women with disabilities brought this book into the world.

We also want to thank and remember the following women who contributed so much, not only to this book, but to the community of women with disabilities around the world. Sadly, they died before the book was published: Hellen Winifred Akot, Tanis Doe, Ana Malena Alvarado, Connie Panzarini, Nanette Tver, Barbara Waxman-Fiduccia, and Sandra Welner.

We also thank the following foundations and individuals for their generosity in financially supporting this project: Alexandra Fund; Chaim Tovim Tzedakah Fund of the Shefa Fund; Christopher Reeve Paralysis Foundation; Displaced Children and Orphans Fund/Leahy War Victims Fund, U.S. Agency for International Development (under terms of JHPIEGO contract no. 06-TSC-022); Flora Family Foundation; Ford Foundation; Global Fund for Women; James R. Dougherty Jr. Foundation; Jennifer Kern; Kadoorie Charitable Foundation; Margaret Schink; Marguerite Craig; Mariji Greenhut; May and Stanley Smith Charitable Trust; Norwegian-Dutch Trust Fund for Gender Mainstreaming/World Bank; Swedish International Development Agency; and the West Foundation.
CONTENTS

Introduction: Why a book about health for women with disabilities? .................. 1

1. Disability and the community ................................................................. 5
   What is disability? ................................. 6
   Causes of disability ......................... 10
   Root causes of problems ................. 31
   Health care is a human right for all ...... 33
   Making health services easier to use ...... 35
   Make buildings easier to use ................ 38
   Wrong ideas about disability ............... 15
   Working for change ......................... 16
   Helping women with particular disabilities .................. 43
   Learning about disability ................. 41
   Forming support groups .................... 44

2. Organizing for disability-friendly health care ...................................... 29
   Learning about disability ................. 41
   Treating mental health ...................... 50
   Depression ......................................... 54
   Trauma ............................................... 56
   Working towards mental health ........... 60
   Serious mental illness (psychosis) ........ 59
   Forming support groups .................... 44
   Working for change ......................... 136

3. Mental health ....................................................................................... 49
   Challenges to mental health .............. 50
   Depression ......................................... 54
   Trauma ............................................... 56
   Working for change ......................... 136
   Serious mental illness (psychosis) ........ 59
   Forming support groups .................... 44

4. Understanding your body ..................................................................... 71
   When a girl’s body starts to change 74
   (puberty) ............................................. 71
   Monthly bleeding (menstruation) ......... 74
   A woman’s reproductive system ........... 77
   Infertility ............................................ 81
   Creating a family through adoption ...... 83

5. Taking care of your body ..................................................................... 85
   Eat well for good health .................... 86
   Keep your body moving .................... 88
   Contractures ....................................... 94
   Preventing common problems ........... 96
   Bladder control .................................. 101
   Urinary infections ............................... 105
   Bowel control ..................................... 107
   Monthly bleeding ............................... 109
   Infections caused by yeast ............... 111
   Pressure sores ................................... 114
   Dysreflexia ........................................ 117
   Managing pain ................................. 120
   Working for change ......................... 121
   Easier to use toilets and latrines ......... 123

6. Health exams ....................................................................................... 125
   What regular health exams can tell you 126
   The breast exam ................................. 128
   The pelvic exam ................................. 130
   Other exams to stay healthy .............. 135
   Working for change ......................... 136

7. Sexuality ........................................................................................... 139
   Harmful beliefs about disabled women’s sexuality .................. 140
   Learning about sexuality ................... 142
   Different ways of having sex .............. 147
   Possible problems during sex ............. 151
   Working for change ......................... 154

8. Sexual health: preventing sexually transmitted infections including HIV/AIDS ....157
   Trichomonas ....................................... 159
   Gonorrhea and chlamydia .................. 160
   Sores on the genitals ......................... 163
   Genital herpes and genital warts ......... 165
   Hepatitis ........................................... 167
   What is HIV/AIDS ............................... 169
   Treatment for HIV/AIDS ................. 176
   Preventing infection at home ............. 179
   Safer sex ........................................... 180
   Working for change ......................... 182
## 9. Family planning
- How family planning works ............................................. 187
- Barrier methods ................................................................... 189
- Intra-Uterine Devices (IUDs) ............................................. 195
- Hormonal methods ................................................................. 196
- Birth control pills ................................................................. 197
- Breastfeeding ....................................................................... 199
- Natural family planning ......................................................... 200
- Sterilization .......................................................................... 203
- Emergency methods .............................................................. 205
- Abortion ................................................................................. 207

## 10. Pregnancy
- Planning for pregnancy and birth ........................................... 213
- Staying healthy ...................................................................... 215
- The 9 months of pregnancy .................................................... 217
- Discomfort during pregnancy ............................................... 220
- Movement and balance ......................................................... 222
- Muscle cramps ...................................................................... 225
- Aches and pains in the joints .................................................. 228
- Common health problems ...................................................... 230
- Toxemia of pregnancy ............................................................ 232
- Working for change ............................................................... 233

## 11. Labor and Birth
- How to tell you are in labor ..................................................... 236
- How to make labor easier ....................................................... 240
- Birth by operation (Cesarean) ............................................... 244
- Danger signs during labor ...................................................... 245
- Danger signs after birth ........................................................ 247
- Care for a new mother ........................................................... 249
- Care for a new baby ............................................................... 250
- Working for change ............................................................... 251

## 12. Caring for Your Baby
- Breastfeeding ....................................................................... 255
- Feeding an older baby ............................................................ 265
- Comforting the baby ............................................................... 266
- Changing and dressing the baby ............................................ 268
- Cleaning the baby ................................................................. 269
- Carrying and moving the baby ............................................... 271
- Protecting children’s health .................................................... 274
- Immunizations ................................................................. 276

## 13. Growing older with a disability
- Health problems caused by aging .......................................... 278
- Find new ways to do things .................................................... 281
- When monthly bleeding stops ............................................... 282
- Live an active life ................................................................. 285
- When monthly bleeding stops ............................................... 282
- Live an active life ................................................................. 285
- When monthly bleeding stops ............................................... 282
- Live an active life ................................................................. 285

## 14. Abuse, violence, and self-defense
- Emotional abuse ................................................................... 290
- Physical abuse ...................................................................... 294
- Preventing abuse ................................................................. 295
- Leaving violent partners ....................................................... 297
- Sexual abuse ........................................................................ 298
- Health problems caused by rape .......................................... 302
- Abuse in institutions ............................................................. 306
- Self-defense ................................................................. 308

## 15. Support for Caregivers
- Value caregivers .................................................................... 315
- Caregivers need help too ....................................................... 317
- Take care of yourself ........................................................... 319
- Start a caregiver’s group ......................................................... 321

### Green Pages
- How to take medicines safely .................................................. 327
- Taking other medicines with your disability medicines ............ 328
- Kinds of medicine ................................................................. 330
- Problem List ......................................................................... 331
- Oral contraceptives .............................................................. 355
- Emergency family planning .................................................. 357
- Medicines for AIDS (ART) .................................................... 358

### Appendix A: Take care of your equipment
- Hearing aids .......................................................................... 363
- Taking care of your wheelchair ............................................... 366
- Using a stick to get around ..................................................... 365

### Appendix B: Sign language for health

### List of difficult words

### To learn more
Family planning for women with disabilities (and their partners — whether able-bodied or disabled) must be made available. As is the case with the inclusion of persons with disabilities for all Millennium Development Goals, general reproductive health disabilities. Finally, women with disabilities face additional concerns that must be anticipated in Millennium Development Goal programming: (a) Contrary to the goals and principles of all the human rights conventions, women with disabilities and girls as young as 7 and 8 are often sterilized against their knowledge or will; (b) In some communities, women (and men) with disabilities who have children face the prospect of having their children taken from them because the parents have a disability.
Health care providers caring for people with intellectual disabilities of all ages should adopt a lifespan approach that recognizes the progression or consequences of specific diseases and therapeutic interventions. Special issues in health care, healthy ageing, and intellectual disability. Research indicates that specific populations of people with intellectual disabilities have particular health risks. Women with disabilities have the same health issues as any other women, such as the need for routine breast and cervical cancer screening. Women with impaired mobility are often not given basic tests, such as weight monitoring, due to the lack of accessible equipment. Women with disability, especially individuals who belong to minority groups or who live in rural settings, are often underserved in their healthcare needs. In addition, women with disabilities are more likely to live in poverty, which Moreover, women with disability live longer than in previous years, and as age is linked to an increased risk of developing cancer, it is imperative that the barriers to screening for these women become a focus of discussion. We designed an integrative literature review to investigate this. Multiple databases were systematically searched for literature published between 2001 and 2013. Search terms used were a combination (AND/OR) of key terms. Sociodemographic factors were associated with less access to preventive health screening for women with disability. The literature reviewed indicated that this was complicated further by three prominent barriers: health insurance, health care workers, and physical barriers.
