PUBLICATIONS
Washek F. Pfeffer

Books:

In Journals:

47. A characterization of cardinals $\lambda$ such that $2^\lambda = 2^\kappa$ whenever $\kappa \leq \lambda < 2^\kappa$ (with K. Prikry), Israel Journal of Mathematics, 65(1989), 293–301.
56. Some nonabsolutely convergent integrals in the real line (with B. Bongiorno and M. Giertz), Bollettino dell’Unione Matematica Italiana, 7(1992), 371–402.

In Proceedings:

Technical Notes (not published elsewhere):

5. *Lectures on the generalized Riemann integral*, Mathematics Department, Charles University, Prague, Czech Republic, 1995 (Czech).
