E	< 35

Definition of vision and mission: A vision statement focuses on tomorrow and what an organization wants to ultimately become. A mission statement focuses on today and what an organization does to achieve it. Both are vital in directing goals. Mission, vision, values.Â Mission: The mission of Coinbase is to create an open financial system for the world. Vision: Digital currency will bring about more innovation, efficiency, and equality of opportunity in the world by creating an open financial system. Why it works: Coinbase didnâ€™t sugarcoat what they do in their mission statement, did they? And, in the vision, their message speaks well to the change their company will bring one day.
