The Little Fir Tree is an adaptation of Hans Christian Andersen's The Fir Tree. It is written from the point of view of a fir tree that aspires to be taken home by people and decorated for a Christmas celebration. Finally he gets his chance and experiences the happiest two days of his life as he watches the family open gifts, laugh, and sing. Although the tree experiences some loneliness when he is placed outside, he finds hope in sharing his adventures with the garden plants. Illustrations support the text. Book Resources. "The Fir-Tree" (Danish: Grantr et) is a literary fairy tale by the Danish poet and author Hans Christian Andersen (1805 1875). The tale is about a fir tree so anxious to grow up, so anxious for greater things, that he cannot appreciate living in the moment. The tale was first published 21 December 1844 with "The Snow Queen", in Copenhagen, Denmark, by C.A. Reitzel. One scholar (Andersen biographer Jackie Wullschlager) indicates that "The Fir-Tree" was the first of Andersen's fairy tales to express a But the little Fir wanted so very much to be a grown-up tree. He did not think of the warm sun and of the fresh air; he did not care for the little cottage children that ran about and chatted when they were in the woods looking for wild strawberries. The children often came with a whole pitcher full of berries, or a long row of them threaded on a straw, and sat down near the young tree and said, "Oh, how pretty he is! What a nice little fir!" But this was what the Tree could not bear to hear.  sailed above him, gave the little Tree any pleasure. In winter, when the snow lay glittering on the ground, a hare would often come leaping along, and jump right over the little Tree. Oh, that made him so angry! But two winters. 25. were past, and in the third the Tree was so large that he had to go round it.
